Hi Audrey,

There's no required time frame to respond. It depends on the number and technical complexity of the comments. We can not provide a time frame at this point. We would determine a reasonable response time based on the comments.

Nancy,

Correct me if I'm wrong...but I don't recall there being a set timeframe for us to respond to comments and finalize the permit. Wouldn't timing depend upon what we receive from the public (overview of comments, response to those comments and any changes to the final permit)?

Thanks in advance for the clarification,

Audrey L Johnson

Hi Nancy, Rebecca asked me to ask you a question....

I believe our UIC comment period is over on January 8, 2018. Is there a specific time frame for EPA to respond to comments and issue the final UIC? I have looked in the regs and can't find it, but I admit, my search was not that thorough. I thought you might have the answer off the top of your head.

Thanks,
